

Dr. Neil Grey received his bachelor's degree in psychobiology and pre-med studies from Occidental College in Los Angeles. Dr. Grey received his Doctor of Medicine degree at George Washington University School of Medicine and Health Sciences in Washington D.C. Growing up in western Colorado, Dr. Grey was ecstatic to be accepted at the University of Colorado Anschutz Medical Campus, where he completed his diagnostic radiology residency and nuclear radiology fellowship.

Dr. Grey and his wife Sarah, an environmental lawyer, stay busy raising their two young boys, Finnian and Emrys, along with their first "child", Marty, a furry lab/mutt. In their free time, the family likes to ski, bike, trail run, and spend as much free time outside with friends and family as possible. If that isn't enough, Dr. Grey also loves hiking and has aspirations of slowly tackling as many Colorado 14ers as his time allows.

Dr. Grey's professional interests include both diagnostic and therapeutic nuclear radiology, with an emphasis in radiology leadership and medical ethics. He is passionate about his patients, and advocates that patients should have easy access to their radiologists, despite radiologists' primary role as imagers.

For more information about Advanced Medical Imaging Consultants' radiologists or services, please contact Andi Dresen, Client Services Manager, at 970-484-4757.

Neil E.O. Grey, MD

NUCLEAR RADIOLOGY
