

AMIC WELCOMES

After graduating *summa cum laude* from Colorado State University in Fort Collins, with a degree in health and exercise science, Dr. Dustin Coleman obtained his Doctor of Osteopathic Medicine from Kansas City University of Medicine and Biosciences in Kansas City, MO. He completed his residency at Integris Health in Oklahoma City, OK, followed by fellowship training in breast imaging at Denver Health in Denver, CO.

Dr. Coleman went into medical school with the mindset of becoming a radiologist. He wanted to choose a specialty that has direct patient care, makes a difference, and would offer him the ability to work with advanced technology and collaborate with different specialties. Breast imaging checked all of his boxes. When not working, Dr. Coleman enjoys spending time with family and friends, especially his wife, two children and their two cats. He also likes playing video games, sometimes with fellow doctors, grilling and smoking meats, vegetables, and cheeses, and experimenting with his espresso machine. He is an avid sports fan, often participating in Fantasy Football. Dr. Coleman is also very proud to be Filipino and loves all Filipino food, culture, events, and, most of all, karaoke.

For more information about Advanced Medical Imaging Consultants' radiologists or services, please contact Andi Dresen, Client Services Manager, at 970-484-4757.

DUSTIN J. COLEMAN, DO
